About Myself

A photograph is the pause button of life.

Hi! My name is Shaindy Freund and I am so excited that you are considering me to capture the sweetest addition to your family! I have always loved photography and turned my hobby into a lucrative business. I am a Newborn and Family Photographer with a in-home studio, based in Brooklyn. I focus on capturing the angelic authentic expressions of your precious new addition, as well as parents and siblings.

Becoming a parent is the most important moment in your lives at this time- celebrate it and capture the beauty of becoming a parent for the first, second or tenth time. I would be honored to have you share such a special milestone in your lives with us. May you continue to have many happy and joy-filled years in your future!

why hire professional?

experience

It is a great to get a bargain with someone who is just building their portfolio. However, for a guaranteed results, you should be able to view an entire portfolio of images that demonstrate a consistency in style and output so that you can be confident in the end result you will receive. I have been trained through many courses and workshops and have spent many hours perfecting and refining my skills over the years. When you hire me as your professional photographer you are guaranteeing a level expertise and talent that will ensure your priceless newborn moments are captured for eternity, the first time, without worry.

service

There are many wonderful clients and many wonderful photographers, but You have to be able to connect with your photographer. I pride myself on giving my clients a very individual experience. I will listen to your needs to ensure that you get the photographs you want and that will be treasured for generations. I make the experience an unforgettable stress-free and enjoyable one.

safety

I will be handling your baby between a week to two weeks after birth and therefore I insist that safety and hygiene is number one priority. My studio is sanitized and all wraps are prewashed. I photoshoot in safe positions and props and do not engage in any poses that may be uncomfortable for your baby.

WHAT TO EXPECT

Before your session

As soon as you are interested in booking a session, send me an email or give me a call. We will discuss all the specifics of what you are looking for with your photo session, which package is right for you and your family. Some things we will solidify are what type of photos you'd like (newborn, family, etc), when is the best time for your photos, which pricing package you would like and a choice of different color schemes and poses you prefer. I'll compile all this information in a convenient email and contract and send it your way.

Newborns are best photographed during their first fourteen days when they are still super sleepy and squishy. They fall into deep sleeps easily and are still able to curl up so we can get those adorable shots of them looking teeny tiny and all brand new.

However, if your baby is a bit older, between 2 weeks and 2 months, don't worry. I love photographing older newborns too! They are just usually a lot more awake and don't curl up so much. They do however generally get a lot of photos with their eyes open which is just beautiful. Some babies will still sleep and curl up, but the majority of them are much too interested in what I am doing!

Note: we do pencil in dates before the baby is born to ensure you have a slot within the first two weeks of birth.

During your session

Be Prepared:

Give the baby a bath, about two hours before the scheduled time of the session.

The baby should only be dressed in an easy to take off stretchy, with no undershirt.

Do not wrap the baby in blankets or swaddling-cloths, as the main idea is to keep the baby awake until it's time to leave the house.

Feed your baby right before leaving to the photoshoot.

This will ensure baby is super sleepy and contented when we begin the session.

We follow your baby's lead during the session and stop if baby needs soothing, changing or feeding. Please expect that your little newborn will make a few little messes during the session. It's totally normal, please don't worry, it happens every time! Be patient.

If you would like any photos with siblings and family I will do them first as older children can get bored if waiting around. Then we can spend the remainder of the session just on your beautiful newborn.

Note: I have all the patience to deal with the fussy little ones who fight their sleep, I work with them too, between the swaddling and white noise I sooth them into a calm peaceful sleep to ensure we get the sweetest shots.

After your session

Two weeks after your session, your photos will be ready for viewing via a personal online password protected gallery. The online gallery will be live for 14 days. This time you can select the digital package you like and we can also create some beautiful wall art, photo albums or anything else you like from the options available.

I will also send you a gorgeous video with your digital pictures, It's a beautiful way for you to share some of your photographs with your friends and family and to show off your new bundle of joy!

Once full payment is received your prints will be ordered; they can take 2-3 weeks for delivery and longer for canvas, books or albums. All images will be stored and archived after 60 days. Once the gallery has been closed there will be a \$25 fee to upload your gallery for an additional 7 days.

Sneak peek at my studio

Taking pictures right after giving birth can be stressful. In my studio I make the environment very calm and peaceful. We provide comfortable seating with refreshments and drinks, I also love to involve the mothers to see how cute and angelic their little bundles are. It is a beautiful experience that my clients cherish forever.

What to bring along

We provide all of the wraps, outfits, hats, bonnets, headbands, etc for baby. If you have an item you'd like to incorporate, please bring it with you. We are happy to work it in. Please bring along a pacifier and a bottle. We provide diapers, wipes, and purell.

Session Timing

Our sessions are not timed. We will shoot until we get a beautiful gallery. A session generally takes between two and a half to three hours. Our ultimate goal is to make the experience a smooth calm and enjoyable one where customers satisfaction is priority.

Payment

A non-refundable deposit fee of \$50 is required at time of booking the session. Total must be paid up in full at time of the session. Additional prints, wallarts, albums and gifts, can be paid at time of pick-up.

We pride ourselves with the best customer service and customer satisfaction.

LITTLE LOVE NOTES

I can't get over how much patience you have. You were amazing. You made me feel so comfortable and gave me all the time we needed. And thanks again for the refreshments, it was so heartwarming. I must say it was a great experience. You were so experienced and soothed my baby to sleep so peacefully. I would definitely recommend you to all my family and friends

Thank You,

R.S.

My family went crazy over the pictures you took of my twins. I just can't stop staring at them. You captured their expression and posed them so perfectly. It was a wonderful experience and you are highly recommended.

Thanks for giving me the opportunity to have these memories captured forever.

Proud Mommy and Twins

I can't believe that I actually got newborn pictures. My baby was four weeks old and you still managed to get the peaceful angelic photos. I am so excited with them. It was so nice getting to know you. I am sure to refer you to my friends and family.

Sara K.

FREQUENTLY ASKED QUESTIONS

When do sessions take place?

Sessions can be booked Monday through Thursday. Newborn sessions are usually booked between 9:45-10:30 AM. Newborns generally have a long stretch of sleep in the morning hours.

When should I book my photo session?

Newborn sessions can be booked in advance to ensure availability. Although most do not know when the exact date their baby will be born, scheduling your session early allows me to pencil you in my calendar to ensure your Newborn session is done within 2 weeks of birth, as I only book 2-3 newborns a week.

Do I need to bring in props to use?

My studio has a variety of backgrounds and props to choose from. But sure you can bring your prop along and any ideas you might have, just let me know ahead of time so I will put my creative spin on it to make it work best for your photographs, I will ask you if you have any specific colors or themes that you like. I like to have the studio set up in stations before you arrive so we can smoothly go from one set up to the next.

What if my baby won't sleep?

Once your session is scheduled, you will be sent information to ensure a happy sleepy baby. If you follow the guidelines provided, chances are we will not have that problem. Some babies do take longer to settle than others. Please bring a pacifier to your session.

Do I have to be photographed?

This is your own choice of course. This could be their favorite images in the future when they look back on the photos. Think you need to lose weight before your photo? Not to worry I can help with photoshop! Remember you will never be as young as you are today. Your children think you are beautiful!

What can you do about blemishes?

Do not worry, almost everyone has days with less than perfect skin especially a newborn baby. Your session fee includes editing of your photographs, your pictures will look stunning. actually a lot of time is spent on touching up the photos. Be confident you are in the right hands.
